

**DECLARATION OF CONFORMITY  
REACH REGULATIONS**

Declaration of conformity to REACH Regulation (EC No 1907/2006)  
Registration, Evaluation, Authorisation and Restriction of Chemicals

REFFLEX® International B.V. declares, to the best of our knowledge, that our products comply with the requirements as stated in Regulation (EC) No 1907/2006 of the European Parliament and the Council of 18th December 2006 regarding REACH.

REFFLEX® International B.V. is constantly monitoring its supply chain in order to guarantee to its customers full conformance to these regulations. The regulation requires a duty to communicate information from a content of more than 0.1% acc. to Article 33 of the REACH regulation

Therefore, we are obliged to inform our customers that for the REFFLEX® International B.V. components:

- DN2 and DN5 flexible tubes:  
**do not contain** more than 0.1% of any of the "substances of very high concern" listed on the currently valid "Candidate list of substances for inclusion in annex XIV" resp. annex XIV.
- DN2 and DN5 forged brass alloy nuts:  
**do not contain** more than 0.1% of any of the "substances of very high concern" listed on the currently valid "Candidate list of substances for inclusion in annex XIV" resp. annex XIV.
- DN2 brass fittings:  
**do not contain** more than 0.1% of any of the "substances of very high concern" listed on the currently valid "Candidate list of substances for inclusion in annex XIV" resp. annex XIV.
- DN5 stainless steel fittings:  
**do not contain** more than 0.1% of any of the "substances of very high concern" listed on the currently valid "Candidate list of substances for inclusion in annex XIV" resp. annex XIV.

Our products are not intended for prolonged human contact, or ingestion, or inhalation therefore these products are not harmful when applied and used as intended.
